About Ameresco

Ameresco, Inc. (NYSE:AMRC) is a leading cleantech integrator and renewable energy asset developer, owner and operator.

Founded in 2000 | Public in 2010

Comprehensive Portfolio

Objective approach and in-house technical expertise delivers the most advanced technologies to meet the unique needs of each customer. Majority of projects are budget-neutral, funded by energy cost savings.

Customer Driven

Federal & Municipal Governments, Commercial & Industrial, Higher Ed, K12, Public Housing, Healthcare, Airports. Market reputation across North America & Europe for excellence in customer satisfaction.

\$10+ Billion in energy solution projects, 280+ MWe of Owned Assets in Operation

8,000+ Customers benefitting from energy efficiency measures and renewable energy generation

1,000+ Employees throughout North America and the United Kingdom

Up to 45% Energy cost savings with comprehensive, audit-based improvements

60+ Offices providing local expertise in markets served

In 2020, our renewable energy assets and customer projects delivered a carbon offset equivalent to approx. **12.6M metric tons of CO₂**

Root Problem:

Organizations, large and small, public and private, often don't understand there is low hanging fruit on the path to decarbonization in the form of **energy efficiency**.

At Ameresco, we believe there is significant progress to be made by approaching the project with usage reduction as a first priority.

Simply put: **Start With Efficiency**.

Challenges:

- Awareness
- Procurement Processes
- Policy
- Other “High Visibility” Technologies

Energy Efficiency Benefits:

Administrative

- Reduction of energy costs
- Reduced O&M spending
- Increased reliability
- Improvement of services using fewer resources

Environmental

- Carbon emissions reduction
- Sustainable and green energy creation

Community Benefits/Equity

- Increased safety
- Creation of jobs
- Enhanced quality of life

Problem Statement

“Regarding Buildings & Construction, to achieve Chicago’s Carbon & Equity goals, a critical obstacle to collaboratively overcome within the next 12 months is **the lack of awareness and adoption of energy usage reduction with energy efficiency implementations.**”
