Please leave us a testimonial and include your name.

- The side bonus of these meetings is i always get new ideas for meeting facilitation and use of tech tools to make the discussion more interactive. We leave the sessions knowing what has been accomplished and what are the next assignments and goals.
- Great engagement with dedication to making sure all voices were heard through verbal and tech based sharing
- Effective way to generate ideas and plans - Joel Freehling
- The Advanced Energy Group was a fantastic opportunity to meet clean transportation stakeholders, hear about the obstacles facing the industry, and develop strategic objectives to enable the clean transportation transition.

Any suggestions?

- Sligo isn't working out for me
- Still like the exchange opportunities for the AEG cities to share and compare on these issues, challenges and taskforces.
- Get some utilities, oems, etc in the room

What guidance do you have for the Task Force to achieve its first 90 day milestone: "M1: Identify trusted community organizations and potential business partners."

- Be efficient with everyone's time. Harness existing data, then focus on gaps to produce a comprehensive deliverable.
- Identify a mentor/advisory team for your taskforce that can serve as Subject Matter experts and Strategist across the board.
- Keep milestones achievable
- Think broadly about the data that will be most helpful and that the communities may not even know the right questions to ask since electrification involves a paradigm shift
