

23Q3 GRID MODERNIZATION TASK FORCE SUMMARY

23Q3 Stakeholder Challenge: Grid Modernization
 August 10th @ 8:00am – 12:30pm
 Holland & Knight, Chicago, IL

23Q3 Stakeholder Challenge: Grid Modernization
 August 10th @ 8:00am – 12:30pm
 Holland & Knight, Chicago, IL

SELECTED 12-MONTH CRITICAL OBSTACLE

Addressing reliability challenges for Worst-Performing Circuits at the grid edge with a priority on equity and community engagement.

– GRANT MCEACHRAN
 Regulatory Affairs Director

12-MONTH & 90-DAY GOAL

90 DAY:

Define “worst-performing” circuits in EJ areas & find out timing for ComEd’s next multi-grid plan

12-MONTH:

Identify the tools to measure load growth & impact on worst-performing circuits + plan for the advocacy process to propose this metric

TASK FORCE UPDATE - 23Q3 Grid Modernization

UPDATES:

- Partnered with the North Lawndale Community
 - Working on \$2.5 million CEJA grant application
 - 3 on site visits
- Collected applicable Energy Justice metrics to map in storyboard integrating GEM data form ANL
- Retrieved data on worst performing circuits from ComEd
- **Planned:** overlay worst performing circuit data with placed based information
