

# Eversource at a Glance

- Largest energy company in New England
- 8,000 employees in three states
- About 4 million customers
- Recent national honors:
  - JUST Capital/*Forbes* list: #1
  - *Newsweek* Most Responsible Companies list: #1
  - *Barron's* list of 100 Most Sustainable Cos.

# Decarbonization Goals

- States, cities setting ambitious goals to reduce emissions
- CT: 100% carbon-free electric sector by 2040
- MA: Net zero carbon emissions by 2050
- Eversource has committed to becoming **carbon neutral by 2030**

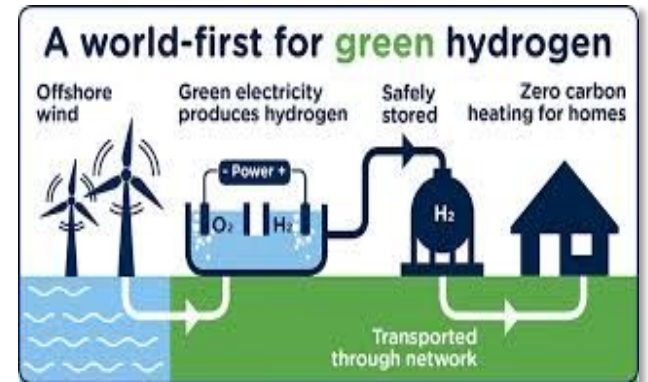

# Addressing The Problem

Eversource Energy Efficiency programs...

- reduce carbon emissions
- save customers \$216 million a year
- include rebates, online tools, savings on efficient lighting and appliances, and more

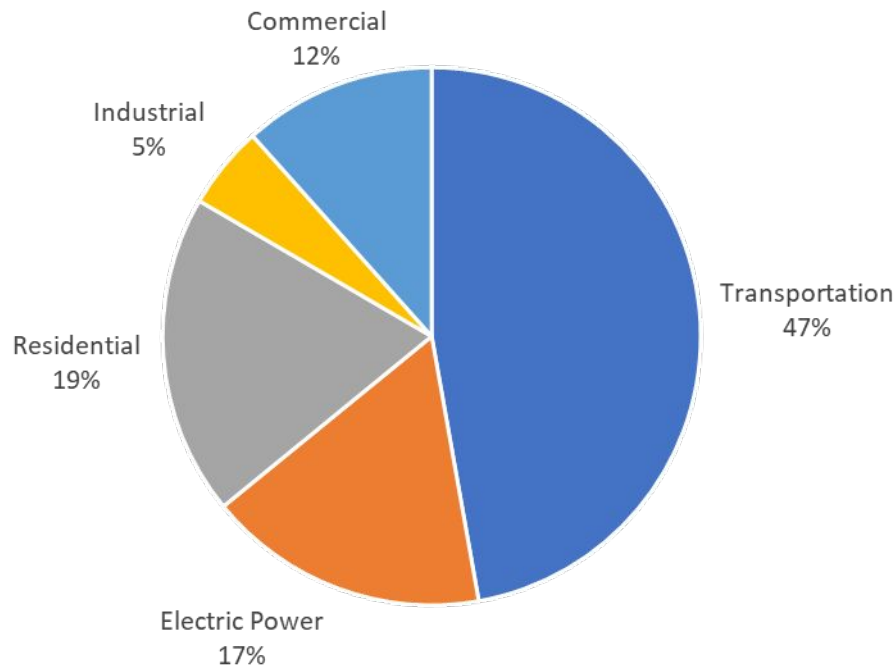

Additional efforts to prepare for the future include...

- transition to heat electrification as technology / economics evolve
- use of renewable electricity to create hydrogen for heating
- transportation electrification

# Consequences of Inaction

## Sources of New England GHG Emissions

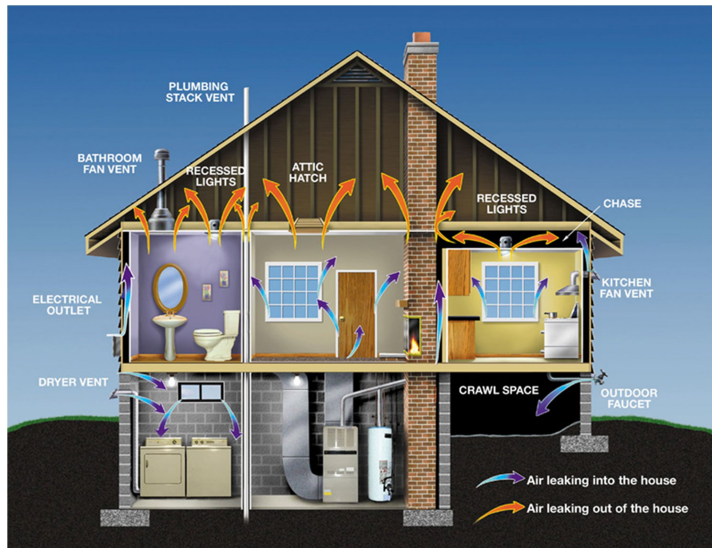

Source: U.S. Energy Information Administration, 2017

Failure to address emissions from these sectors will result in...

- inability to meet regional GHG reduction goals
- strong, well-intentioned push for gas bans leading to unintended consequences
- disproportionate negative impact on low and middle income communities

# Enabling A CarbonFree Boston

Regarding Buildings & Grid Modernization to enable a CarbonFree Boston, we must first address **deeper and broader building weatherization energy efficiency**

## Your Energy Savings Plan from Eversource

Do you know how much energy you are using at home? Would you like to know more about how you are using energy and what you can do to reduce that amount?

Eversource's new online **Energy Savings Plan** tool gives you the power to understand and manage your energy use and create a plan to save.

### Energy Savings Plan features:

- Easy to read charts that show how your energy use changes month over month and year over year and how it compares to similar homes in your area;
- Energy-saving recommendations to reduce your energy bills and save you money;
- An Energy Plan to keep you on track with your short and long term energy-saving goals;
- A user profile that you complete to customize your recommendations even further.
