energy burden

**Air quality**

**Bronx**

**Low income housing**

Affordable Housing Ravenswood LMI NYCHA comfortable housing  
Minimizing Vehicles Access to DERs Public housing resilience  
Property owners  
Incentive structure Poor air quality areas  
Expanding access

**Regarding Grid Modernization, to achieve New York's climate, health & equity goals, a critical obstacle to collectively overcome in 12 months is \_\_\_\_\_.**

0 3 2

"The need for a simple heat pump/AC design, incentive, and installation program." - Pat Sapinsley, Urban Future Lab

"Develop a knowledge base to inform the development of policies and programs that will support flexible demand resources necessary for the overall energy system"- John Romano/Raghu Sudhakara, Con Edison

"The urgent and pressing need for grid flexibility – without a scalable way for the grid to access DERs." - Erika Diamond, EnergyHub

## Please leave us a testimonial and include your name.

- Putting the massive talents of the dynamic professionals that attend AEG events into tangible 90day/12 month action plans makes AEG unique in its ability to drive the clean energy transition. AEG drives impact and action, not meetings. -Rob Parker
- Diverse experience and expertise leads to successful solutions Phyllis Kessler
- We always learn new things and roll up our sleeves with thoughtful people. Collaboration is the solution.
- So good thank you!
- Very exciting and a powerful learning experience

## Any suggestions?

- Make changing the term heat pumps to something marketable part of pre-meeting homework. Start driving adoption of the metric, "per capita peak contribution "

Post Event Survey (5/5)

002

**What guidance do you have for the Task Force to achieve its first 90 day milestone: "M1: Identify trusted community organizations and potential business partners."**

- Work with NYC Mayor's office
- Keep it simple and limited in scope

# What should be the North Star Metric for success?
