

22Q4 CLEAN TRANSPORTATION TASK FORCE SUMMARY

 December 15th | Holland & Knight
22Q4 Stakeholder Challenge
Clean Transportation

SELECTED OBSTACLE

“ Target planning and coordination for upgrades, focusing on capacity constrained regions and Environmental Justice Communities, in preparation for and supported by Federal funding.

- HEATHER TAKLE
PRESIDENT & CEO

**22Q4 CLEAN TRANSPORTATION
12 MONTH SOLUTION:**

Identify target areas by considering overlap of A. Federal funding availability, B. Grid constraints C. Fleet customer propensity to electrify

M1: Overlay GIS map of A, B & C
M2: Survey/Convene customers
M3: Align on high-priority location to design approach that solves for climate, livability and justice (Boston Green New Deal)

- TABLE # 5

22Q4 TASK FORCE UPDATES

UPDATES:

- Task force members divided into 4 subgroups
 - Environmental Justice Communities data
 - Fleet data
 - Funding data
 - Capacity data

NEXT STEPS:

- Answer the following questions:
 - Where are the EJC's and what air quality issues do they have?
 - Where are the fleets? What type?
 - How can we secure federal/state funding? How much?
 - What are the capacity restraints on EJC's?
 - Evaluate three utility capacity maps and current utilization of transformers in EJC's
