

PEOPLE INFRASTRUCTURE ENERGY

ADVANCED ENERGY GROUP BOSTON

PEOPLE + INFRASTRUCTURE + ENERGY

AGING BUILDING STOCK

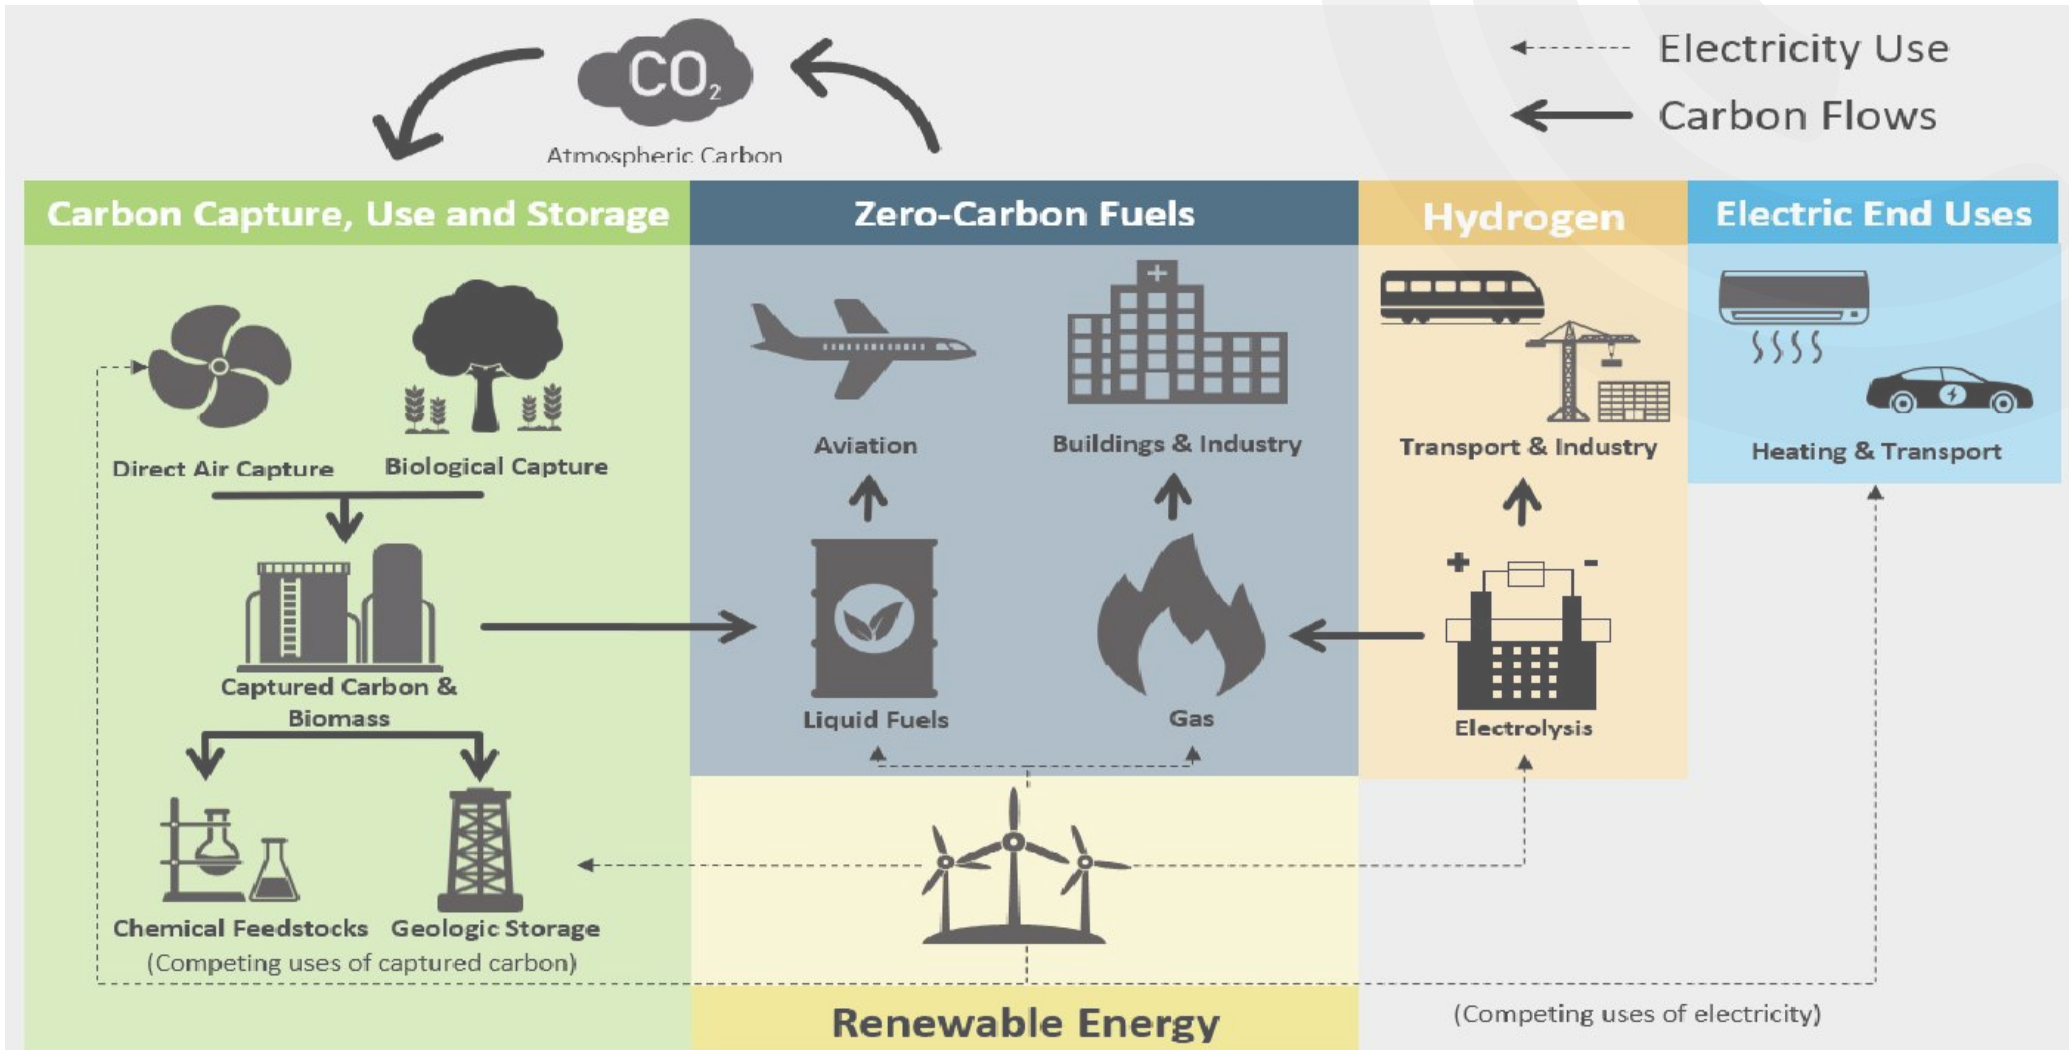

Commonwealth has established bold audacious goals to drive down energy utilization and stimulate net zero strategies. People of color and low access communities have too many people have disproportionately borne the environmental and health burdens associated with our current energy economy. This is particularly true for those living in Environmental Justice (EJ) communities, both rural and urban.

NEW ASSETS

New construction starts are subject to jurisdictional approvals. Decarbonization planning requires both short term and long term strategies. Design teams are evaluating first cost equipment, high performing heat pumps and energy saving cooling systems. The construction workforce and labor forces are excluded from the process.

CHALLENGES

INVESTMENTS

- Innovation
- Behavior Modification
- Workforce
- Equity
- Technology & Carbon Capture
- Infrastructure
- Education
- Multifamily Residential Market
- Asset Transfers

Regarding Buildings & Construction, to achieve Boston's Carbon & Equity goals, the most critical obstacle facing Maven Construction, Inc. and BPM Ventures to overcome is attracting and retaining talent that will continue to push the edge, remain committed market adjustments and remember that people are at the center of everything.”
