(1/2)

- You have brought together some of the best leaders, thinkers, and creatives working towards clean energy and equity goals. This is so powerful because it forces us to work collaboratively rather than in silos. The diversity of thought can actually create opportunities for solutions and progress. - Chandler Precht
- Always on point and always very valuable.
- Good place to learn and collaborate
- AEG continues to be a beacon, presenting continuous guidance when navigating complex energy issues. It has become “The Platform” to engage, network while cite specific challenges amid Stakeholders

Cities. It fosters a medium for practitioners to build consensus suggesting practical milestones & how to execute! I have learned so much from these

Quarterly/Regional meetings.

Thanks AEG!

- Exciting, impactful session with potential for real impact- Gary Lestherman

What guidance do you have for the Task Force to achieve its first 90 day milestone: "M1: Identify trusted community organizations and potential business partners."

(1/2)

- I'd be happy to accept any proposals for the MS in Sustainability Management and Science Capstone Workshop (@ Columbia U) that would assist the Task Force in completing M1. The Capstone course promises to provide our students with experience in conducting original sustainability-focused research and substantive analysis. We are especially interested in sustainability projects that address the interconnection between the environment and equity. - Chandler Precht
- Roundtable Discussions with NYCHA and designated partners.
