

NYC DOT Key Efforts Towards Electrification

Mark Simon – NYC DOT December 2019

Lead By Example - City Fleet

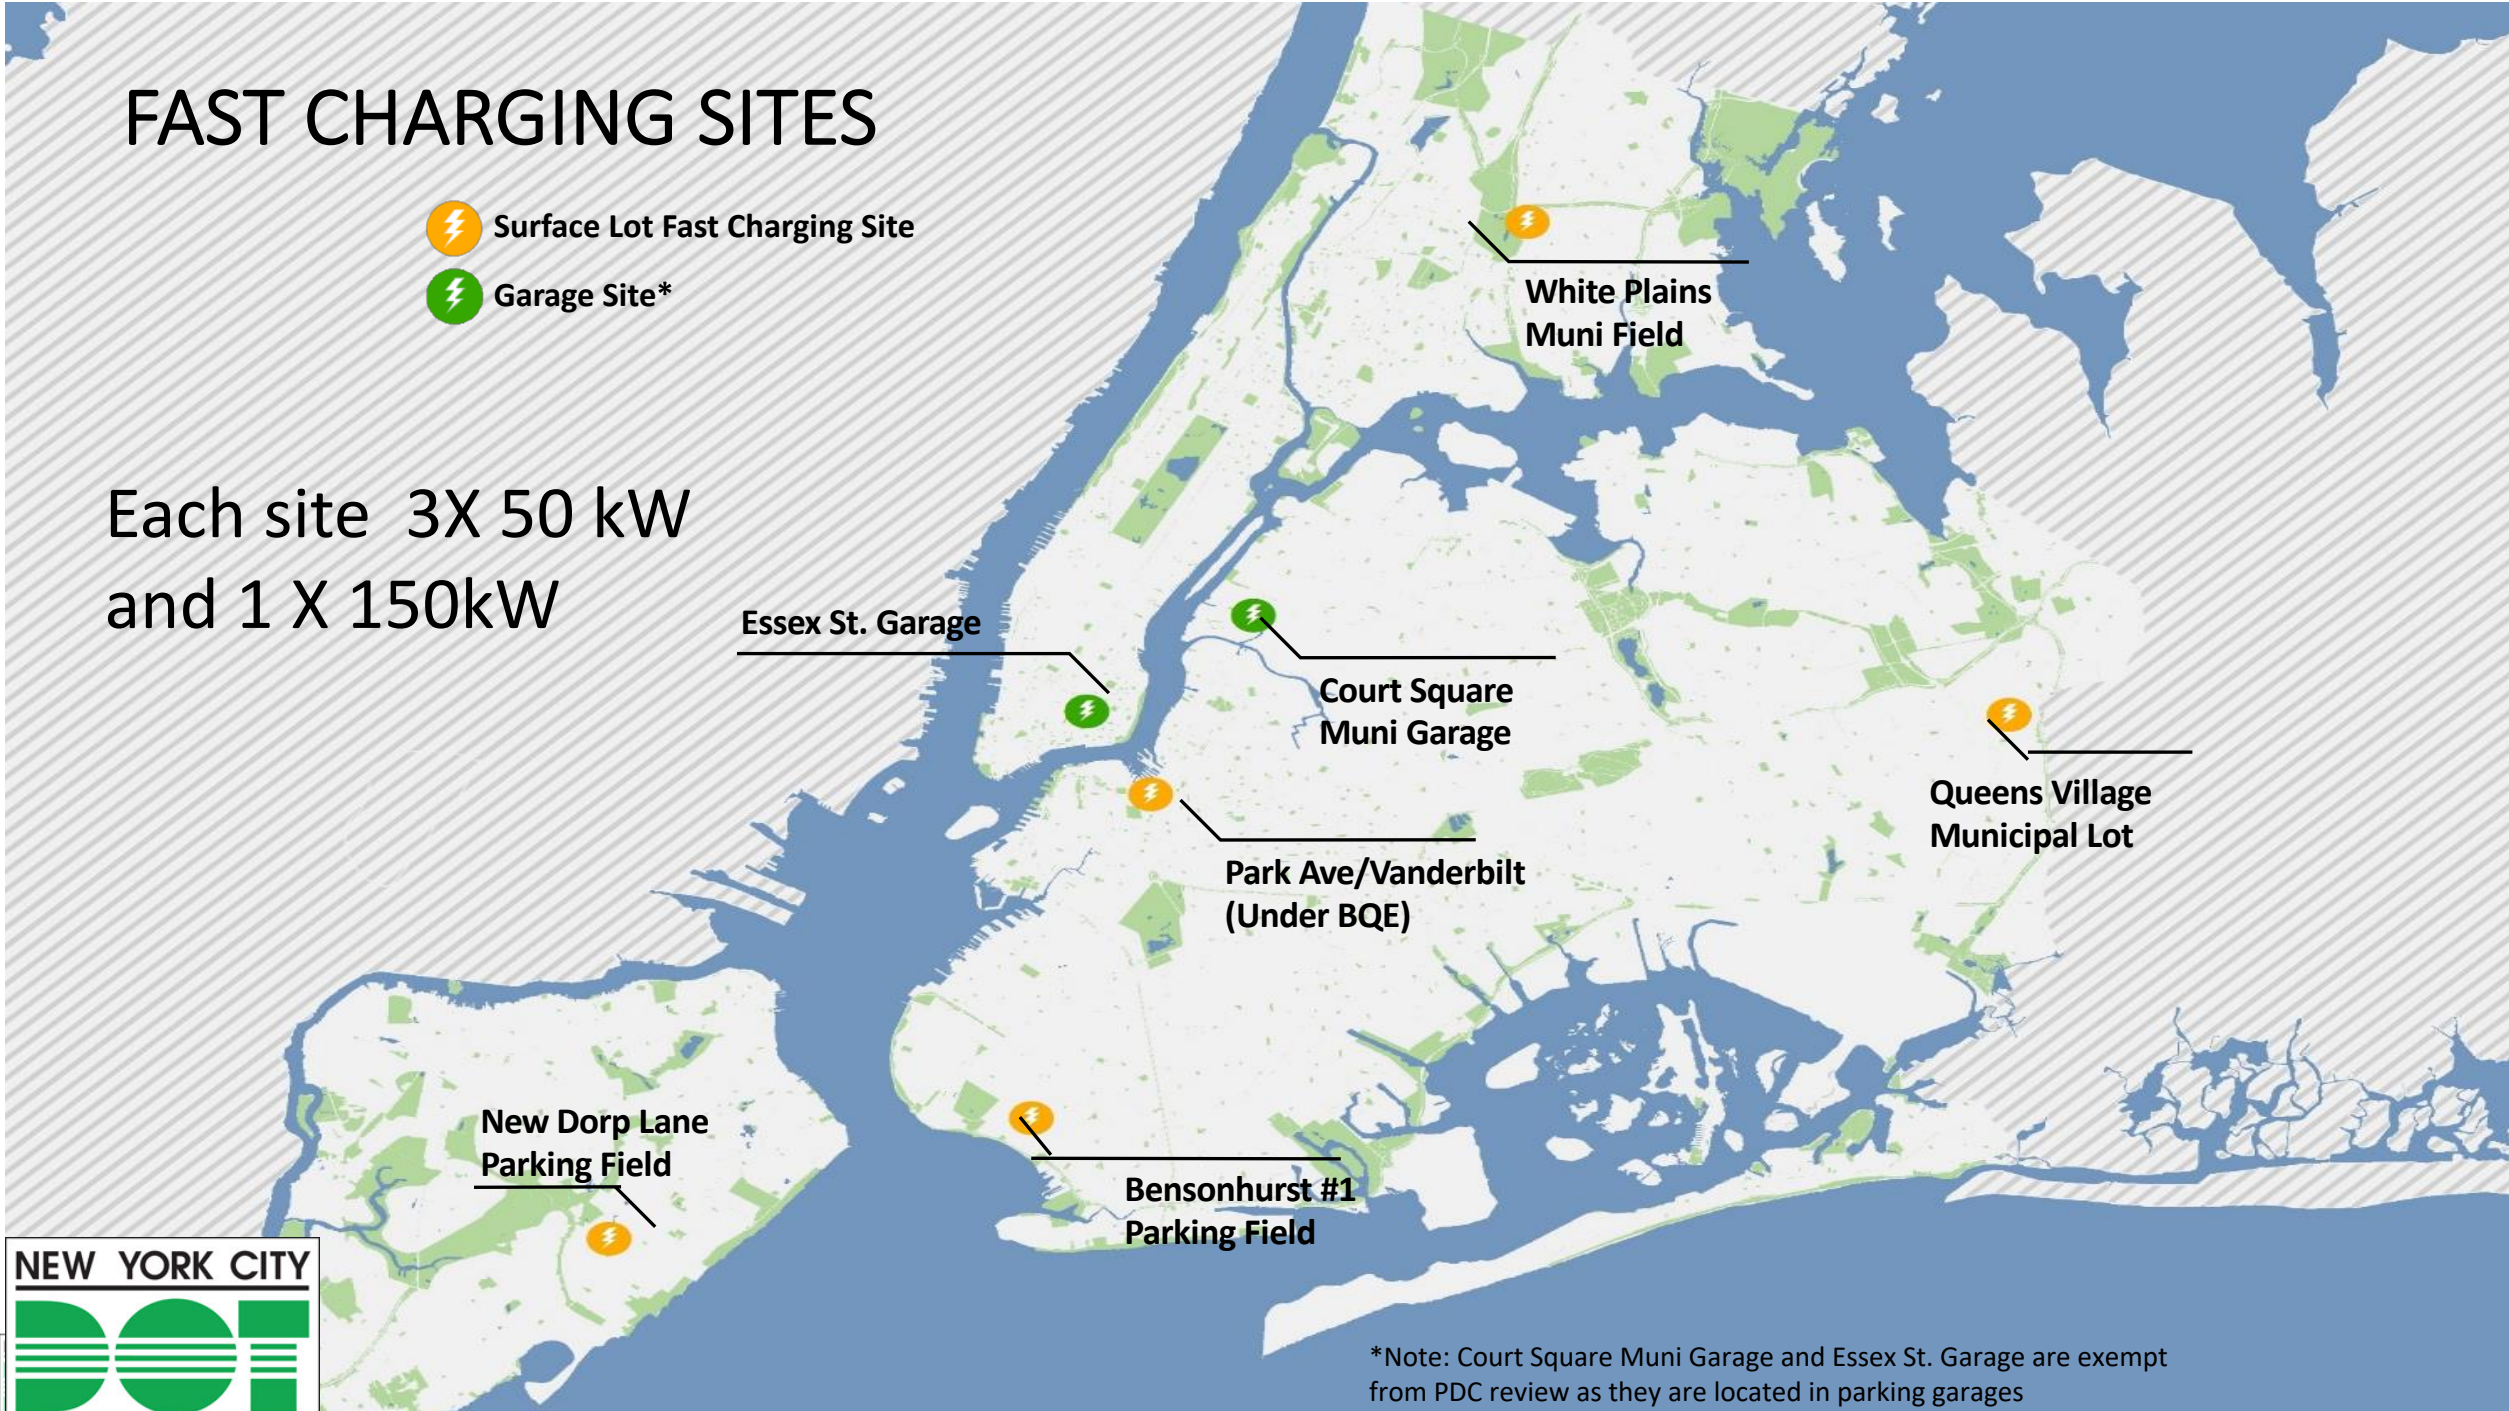

- 2200 BEV/PHEV in City fleet.
- 4000 by 2025
- 800 Charge Spots including 82 Solar Chargers
- Plans for 100 DC chargers. Public where possible.

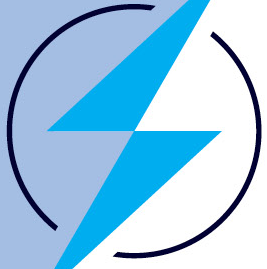

FAST CHARGING SITES

-  Surface Lot Fast Charging Site
-  Garage Site*

Each site 3X 50 kW
and 1 X 150kW

*Note: Court Square Muni Garage and Essex St. Garage are exempt from PDC review as they are located in parking garages

Con Ed/DOT Curbside Evaluation.

120 Chargespots in multiple neighborhoods across the City.

For Mobility & Transportation to enable New York's decarbonization goals, we must first ...

- Develop a comprehensive infrastructure strategy that is scalable.
